

## SCDM Lab - 4

**Faculty-in-charge:** *Dr. D.K. Shaw, Dr. Ashok Kumar Mehta*

Data Mining Lab Assignment 4:

Data : 18/02/2022

1. Load 'spambase.csv' file in jupyter notebook.
2. Print the total instances per class of the above dataset.
3. Split the data part and label part of the above dataset.
4. Find the accuracy of this using K-Means algorithm in python.
5. Compare the accuracy of spambase dataset with the heart disease dataset by using k-means algorithm.
